Asia Pacific Journal of Social Sciences is an international, peer-re-
viewed, open-access academic journal dedicated to promoting theoretical
innovation and methodological advancement in the field of social scienc-
es. The journal focuses on key issues and practical challenges related to
social development in the Asia-Pacific region. It encourages critical
theory, humanistic concern, and interdisciplinary perspectives to explore
topics such as social structure, institutional change, cultural identity, and
public affairs. Special attention is given to studies on social inequality,
group boundaries, and knowledge construction. The journal values rigor-
ous research design and sound methodology, and welcomes high-quality
research that contributes to theoretical development, mechanism analysis,
and real-world problem-solving.

Frontiers of Asia Pacific Art and Design is an international, peer-re-
viewed, open-access academic journal focusing on cutting-edge theory
and innovative practice in the fields of art and design. The journal covers
a wide range of topics, including visual arts, product design, digital media,
environmental art, and art education. It highlights recent achievements in
the Asia-Pacific region related to artistic creation, design thinking, cultural
integration, and technological applications. Emphasizing the dialogue be-
tween tradition and modernity, as well as local and global perspectives, the
journal serves as an open platform for researchers, educators, and practi-
tioners in art and design.

Journal of Clinical Diagnosis and Treatment is an international,
peer-reviewed, open access journal dedicated to advancing clinical medi-
cal research across multiple disciplines. The journal serves as a platform
for publishing high-quality original research, reviews, and clinical studies
that enhance the understanding of medical practices, treatment innova-
tions, and healthcare outcomes.
