**Asia Pacific Journal of Social Sciences** is an international, peer-reviewed, open-access academic journal dedicated to promoting theoretical innovation and methodological advancement in the field of social sciences. The journal focuses on key issues and practical challenges related to social development in the Asia-Pacific region. It encourages critical theory, humanistic concern, and interdisciplinary perspectives to explore topics such as social structure, institutional change, cultural identity, and public affairs. Special attention is given to studies on social inequality, group boundaries, and knowledge construction. The journal values rigorous research design and sound methodology, and welcomes high-quality research that contributes to theoretical development, mechanism analysis, and real-world problem-solving.

**Frontiers of Asia Pacific Art and Design** is an international, peer-reviewed, open-access academic journal focusing on cutting-edge theory and innovative practice in the fields of art and design. The journal covers a wide range of topics, including visual arts, product design, digital media, environmental art, and art education. It highlights recent achievements in the Asia-Pacific region related to artistic creation, design thinking, cultural integration, and technological applications. Emphasizing the dialogue between tradition and modernity, as well as local and global perspectives, the journal serves as an open platform for researchers, educators, and practitioners in art and design.

**Journal of Clinical Diagnosis and Treatment** is an international, peer-reviewed, open access journal dedicated to advancing clinical medical research across multiple disciplines. The journal serves as a platform for publishing high-quality original research, reviews, and clinical studies that enhance the understanding of medical practices, treatment innovations, and healthcare outcomes.
